

VSP 200 cod. 51489

Technical specifications

AR Code	51489
Version	VSP
Max flow (lpm)	200
Max flow (gpm)	53
Max Pressure (bar)	20
Max Pressure (psi)	290
Net weight (Kg)	-
Size (mm) - L	-
Size (mm) - H	-
Size (mm) - W	-

Product details

Automatic spring-loaded maximum pressure safety valve. This valve is made of a plastic (nylon and fiberglass) which is particularly resistant to liquid chemical products and even abrasive liquid chemical products. If it is used as safety valve, it guarantees a constant pressure whenever it is not necessary to continuously regulate the working pressure. Any excess liquid bypasses the valve and allows it to maintain a constant line pressure. Available in the membrane version (for better regulating accuracy) and the piston version (to deaden the effect of vibrations).
